

VeraSol Quality Assurance Certification

Expand your off-grid solar business
with trusted quality verification

VeraSol Quality Assurance Certification

VeraSol is a globally recognised quality assurance programme that verifies off-grid solar products are safe, reliable, and perform as promised. Covering products such as **solar lanterns, solar home systems, and the appliances they power**, VeraSol helps manufacturers build trust while giving buyers greater confidence.

As a trusted commercial certification partner, Intertek provides expert support throughout the VeraSol certification journey, helping manufacturers demonstrate quality and unlock new market opportunities.

Why Verasol?

VeraSol certification helps manufacturers:

Demonstrate product quality, safety, and performance

Build assurance with buyers and distributors

Meet recognised international quality requirements

Access opportunities for procurement and financing partnerships

Differentiate products in global markets

Certified products are listed in the **VeraSol Product Database**, making it easier for buyers to identify trusted, quality-verified solutions.

VeraSol Quality Assurance Certification

Why Intertek?

Intertek provides complete certification support, including:

 Certification Support	 Product Sampling	 Testing	 Compliance Verification
Managing your certification journey	Coordinating programme-compliant sampling	Evaluating products to recognised international standards	Verifying conformity with VeraSol requirements

Backed by global expertise in testing, inspection, and certification, Intertek helps manufacturers achieve certification efficiently and confidently.

Government Market Access Support

VeraSol Test Reports are accepted under selected Intertek Government PVoC and CAP programmes, helping simplify compliance requirements and accelerate access to regulated export markets.

Supporting the Future of Clean Energy

High-quality off-grid solar solutions are expanding access to reliable, affordable, and sustainable energy for communities worldwide.

Together, **Intertek and VeraSol** are helping manufacturers build trust, expand market access, and accelerate the transition to clean energy.

Ready to certify your products?

Partner with Intertek to demonstrate quality, strengthen buyer confidence, and unlock new opportunities.
